IMPORTANT FACTS .- Constant writing for six months is done chooser with Gold Pens than Steel Pens; therefore, it is economy to use Gold Pens.

The Gold Pen is always ready and reliable, while the Steel Pen must be often condemned and a new one selected; there-fore there is great saving of time in the use of the Gold Pen. Gold is capable of receiving any degree of elasticity, so that the Gold Penis exactly adapted to the hand of the writer; therefore, the perves of the hand and arm are not injured, as is known to be the case by the use of Stoel Pens.

The fen is mightier than the Sword," in another
